SOCIOLOGY

A-LEVEL

2019-2020

What is Sociology?

A good sociologist is someone who is interested in the events that define people's lives, their moments of tragedy, love, hate, drama and ecstasy...but they must also be fascinated by the commonplace, the everyday, the unromantic. Sociology is not common sense...it is about understanding society in a disciplined way.

The six billion people on earth are members of a single biological species – humans – but there are striking differences between them:

- The Chinese wear white at funerals, whilst the British wear black.
- It is tradition that at British weddings couples kiss, at Korean weddings couples bow, and at Cambodian weddings the groom touches his nose to the bride's cheek.
- In the UK a typical handshake is shorter than one second, whereas in Africa it is common for a handshake to last several minutes.

Sociology is the study of how human societies shape the lives of the people who live in them, and how these people act, react and interact.
